**SUMMARY OF MEETING:**

Background: ASTM F08.96 US ISO Tag Committee participates in International Organization for Standardization (ISO) and European Committee for Standardization (CEN) standards development related to cycles.

Summary: The committee reported on updates to ISO and CEN standards related to bicycles. Key developments include a disc brake and steerer tube fatigue tests, mudguard stay impact tests, brake heat resistance tests, handlebar end plug requirements, and tire and rim overpressure tests. Additionally, the committee reported on new button cell battery requirements in Australia.

Next Steps: CPSC staff will continue to attend meetings to monitor international developments. The next committee meeting is scheduled for the Fall of 2022.
